

Tucson Cactus and Succulent Society

Presents

ABC - 123 CARE CODE*

While the different requirements for all species cannot possibly be covered in a simple code with only 9 permutations, a code with more variables might be too complex to be workable and would then be of no use to the general public. This simple code has thus far been quite useful in giving general guidelines for plant lists and was designed for the climate in and around Tucson and cannot be applied to other areas without modifying the codes appropriately. This would mean that in hotter areas, like Phoenix, many of the "A" rated plants would become "B"s and in areas with long sustained cold periods and lower temperatures the cold hardiness would not be accurate. This code was also designed with mature plants, not seedlings, in mind and also for plants that are receiving adequate care (water and fertilizer).

* Courtesy of Miles To Go

NOTES:

1. The first list is sorted alphabetically by Botanical Name; followed by lists sorted by Full Sun, Partial Shade, and Shade.

2. Some plant names may have changed since this information was compiled. We will be updating as time permits.

A - FULL SUN - Species that will tolerate day long full summer sun.

B - PARTIAL SHADE - Species which require some protection from prolonged hot sun, but which will tolerate about a half-day of full summer sun. Often these species prefer morning sun and afternoon shade.

C - SHADE - Species that will tolerate only a few hours of morning sun in the summer, if that. These species will often tolerate considerable winter sun and generally do well planted so that they can take advantage of the annual shift in the sun's angle.

1 - FULL COLD - Species that will tolerate full cold without protection. Most of the species have only been tested down to 18F for the duration which occur around Tucson. Some of the species rated "1" are probably not hardy to the extreme temperatures in some locations around Tucson which will drop to the low teens in colder years.

2 - SOME COLD PROTECTION - These species will often survive the winter without injury in the warmer Tucson locations without any additional cover. However in the colder locations or during cold years, they will need to be covered. Often, only the tender tips are susceptible to cold and a covering of burlap or other cloth is adequate.

3 - TENDER - These species are damaged by any frost, even when covered. Those species rated with an "A" or "B" often makes good potted plants for the patio, but care must be taken to move them inside during the winter.

Alphabetical Plant List

Code	Botanical Name	Code	Botanical Name
A1	Acanthocalycium klimpelianum	B1	Agave utahensis v. utahensis
A1	Acanthocalycium peitscherianum	B3	Agave verschafeldtii cv. 'Ohi Raijin'
A1	Acanthocalycium violaceum	B1	Agave victoria-reginae
A3	Adansonia fony	B1	Agave victoria-reginae ornata

C1	Sempervivum aracnoideum	C3	Dudleya greenii cv. White Sprite
C1	Sempervivum calcareum	C3	Echeveria x Mona Loa
C1	Sempervivum tectorum	C3	Echeveria x Paul Bunyon
C1	x Graptoveria Amethorum	C3	Edithcolea grandis
C1	x Graptoveria Silver Star	C3	Euphorbia cap-saintmariensis
C2	Cremnosedum x Little Gem	C3	Euphorbia decaryi v. decaryi
C2	Echeveria affinis	C3	Euphorbia decaryi v. spirosticha
C2	Echeveria agavoides	C3	Euphorbia knuthii
C2	Echeveria bella	C3	Euphorbia milii v. imperatae Mini Crown of thorns
C2	Echeveria derenbergii	C3	Fockea edulis
C2	Echeveria harmsii	C3	Gasteria liliputana
C2	Echeveria minima	C3	Gasteria obtusifolia
C2	Echeveria purpurorum	C3	Gasteria verruculosa
C2	Echeveria subsessilis variegata	C3	Gasteria x Frosty
C2	Echeveria x Arlie Wright	C3	Gasterworthia x Gordo
C2	Echeveria x Doris Taylor	C3	Graptopetalum superbum
C2	Echeveria x Firelight	C3	Gymnocalycium friederichii Red Cap
C2	Echeveria x Wavy Curls	C3	Hatiora salicornoides
C2	Notocactus haselbergii	C3	Haworthia angustifolia Riebeeck East
C2	Pachyveria hybrid	C3	Haworthia attenuata
C2	x Graptoveria Debbie	C3	Haworthia attenuata v. clariperla
C3	Aeonium arboreum	C3	Haworthia baccata
C3	Aeonium arboreum crest	C3	Haworthia baccata X reinwardtii
C3	Aeonium arboreum cv. Sunburst	C3	Haworthia bolusii v. bolusii
		C3	Haworthia browniana

Cactus & Succulents for Shade

Code	Botanical Name	Code	Botanical Name
C3	Haworthia coarctata v. coarctata	C3	Haworthia retusa X truncata
C3	Haworthia coarctata v. coarctata greenii	C3	Haworthia retusa X truncata Harry Johnson III
C3	Haworthia comptoniana	C3	Haworthia roseoluteus
C3	Haworthia cooperi	C3	Haworthia scabra
C3	Haworthia cooperi v. leightonii	C3	Haworthia scabra v. morrisae
